RE: KickStarter Presentation

SPEAKER: Ted Crawford, President, TEAM TOOLS Corp., Evergreen, CO., Las Vegas, NV. - Director, TOOL-MAKERS, LLC., Evergreen, CO. Contact: tedclake3@gmail.com, 775-225-8799

Ted has an extensive background in a variety of manufacturing disciplines including CNC machining, sheet metal forming, waterjet production, laser cutting and marking, CNC wire EDM CAD/CAM/CAE engineering as well as being a machinist, tool & die maker and machine tool service tech along with a rich career in CNC machine tool manufacturing.

His knowledge of manufacturing processes ultimately lead to the development of his hand tool project for which he has 2 patents and more in the works. Ted has also been to Taiwan, Japan and China to get his products made and now has working prototypes and pre-production models in hand.

SPEAKER: Bryan Pape, Contact: 303-956-0231

TOPIC: KICKSTARTER.com, World's largest crowd funding site.

KickStarter is a peer to peer online funding platform in which the general public (individuals or companies worldwide) can pledge a project in incremental amounts and in return receive a reward which is usually made by the project originator.

The project originator must achieve a threshold of funding level to succeed and receive the raised funding.

The goal of the project originator is to create a worthwhile and/or beneficial project that the crowd believes in and exceeds the requested funding level.

After funding is completed, projects and uploaded media cannot be edited or removed from the site. Projects include films, music, albums, and consumer products.
