

Successful Inventions + Scar Tissue

by: Leonard L Hierath, P.E.

Highlights victories (+ pain) in the design and the production of:

Stock Shock™, a humane cattle prod, in production since 1976

Scor-Post™, an on-court tennis scorekeeper for amateur matches, manufactured locally for eight years

Leaves In Bags™, a system for autumn leaf collection and bagging, manufactured locally for ten years

Slim Thin Wallet™, a unique fabric wallet for men and women, introduced in 2011, can be viewed at HierathProducts.com.

Passive Stretch Board™, a device for safely stretching calf and ankle muscles for better balance; was newly introduced this year.

Hierath, a mechanical engineer, works in product design and development at Hierath Products, LLC, where the focus is on low-tech, practical, highly functional products which use materials and resources in an earth-conscious manner.

His 30-page free download eBook titled **Launch ~ Break-out Your Invention from Home ~** encourages inventing items for your home to gain experience toward successful invention commercialization.
